

18GM Firewood Processor

Centralized operator station with simple controls and unlimited visibility.

Two or Four Way Splitter options with 4" or 5" cylinder

Fold-away hitch for an easy fit inside a garage, or for safety at the jobsite.

SIMPLE.

DURABLE.

EFFECTIVE.

PUMA Firewood Processors are purpose-built with the contractor in mind. With controls that are easy to use, sturdy construction, and a trusty Honda engine, the 18GM is the perfect choice for the small to medium-size operation. The PUMA 18GM has an industry only standard electric winch to lower and raise the stacking conveyor into place. All PUMA Firewood Processors are packed with features, at a price you can afford.
